Captain Rod Goodman
The Multihull Specialist
Resumé

Services Certifications Sailing Instruction Memberships
Boats Owned Services

Biography :

Rod was born in London, England, and grew up on a beach in Bombay, India. After the shock of returning to the cold and rainy British Isles had worn off, Rod learned to sail as a youth in the testing and unbelievably cold waters of the North Sea off Newcastle-upon-Tyne. Rod has sailed in most of the world's oceans and cruising areas, including the Mediterranean, Greek Islands, Florida Keys, Bahamas, Sea of Cortez, and Caribbean of which he has detailed knowledge. Rod enjoys racing and specializes in multihulls. He has owned and raced Farrier Trimarans out of Long Beach and has won the prestigious multihull ORCA Founder's Trophy. Rod currently lives aboard his Fountaine Pajot catamaran "Top Cat". In addition to his marine qualifications Rod has a B.Sc. and Ph.D. in Electronic Engineering, is a Chartered Electrical Engineer, a Fellow of the Institute of Electrical and Electronic Engineers (IEEE), and has many years of teaching experience as a university professor.
